Summary

Detail-oriented senior Computer Science student with diverse project and co-curricular experience focused on software development, community engagement, and stakeholder communication. Highly adaptable and quick to learn, with a desire to continuously improve knowledge and skillsets; committed to delivering user-friendly, error-free solutions.

Technical Skills

Languages: HTML/CSS/JavaScript, C#, PHP, Python, Kotlin, SQL
Frameworks: React.js, React Native, .NET, Tailwind, Bootstrap, Flask
Databases & Cloud: Supabase, MongoDB, MS SQL Server, AWS, Google Cloud
Developer Tools: GitHub, Postman, VS Code, Figma, Notion, Trello
Core Skills: Agile development, REST APIs, UI/UX fundamentals, Automation workflows (Python / Power Automate)
Soft Skills: Leadership & Cross-functional Collaboration, Adaptability, Initiative, Communication, Presentation & Pitching

Professional Experience

Intern — *Indra Philippines, Inc.*
June 2025 – July 2025

- Resolved **30% of the team's total backlog tasks** across development, automation, and UI/UX workstreams over a **280-hour** internship by contributing to internal tool enhancements and maintenance requests.
  - Developed full-stack web applications for internal tools using core web technologies (**HTML/CSS/JS/PHP)**, **Bootstrap,** and **jQuery** to improve design and functionality.
  - Analyzed internal datasets and built automated data pipelines using **Python** to streamline data processing.
  - Supported the development of an automated attachment extraction tool with **MS Power Automate**, eliminating **100%** of related manual work.
  - Redesigned a legacy application with **Figma**, applying industry-standard UI/UX principles.

Project Experience

Project Manager/Developer — *RoomSync: A Smart Boardmate Powered by AI* *July - October 2025*

- Built a mobile user-to-unit matching platform with **React Native/TypeScript, Tailwind, and Supabase**, and designed an **ELO-based recommendation model** to tailor property suggestions based on user preferences.
- Directed a team of 7 through an Agile Software Development Lifecycle, coordinating **GitHub** workflows and ensuring timely delivery of documentation components.

Backend Developer — *Dockside Hotel: A Hotel Reservation Management Application* *February – May 2025*

- Developed a full-stack hotel reservation management system with native **HTML/CSS/JS/PHP, and MySQL**.
- Leveraged **GitHub** for version control and team collaboration, enabling a streamlined development workflow.

Programmer / UI Designer — *LAPUK: A Garbage Segregation Aid Application* *August – December 2024*

- Created a full-stack Android application using **Kotlin** and **Python** (**Flask** backend), integrating AI-based Image Detection/Classification capabilities using a **YOLOv11** AI Model.
- Utilized **GitHub** for version control, resulting in seamless collaboration with team members.

Extracurricular Experience

Product & Pitch Lead — *AI.DEAS for Impact 2025: AI for Developing Ethical and Applicable Solutions*
September 2025

- Led product ideation and system-design efforts for *Axolert* — an AI public-health monitoring concept — and delivered the technical pitch, earning **Top 5** out of 30 teams in the regional competition.

Product & Pitch Lead — *AI.DEAS for Impact 2024: AI for Innovation and Social Impact*
June 2024

- Led requirements discovery to identify agricultural challenges and design an AI-automated irrigation solution.
- Pitched the solution to business and government stakeholders, earning **1st Runner-Up** in the competition.

Programmer — *SU-CCS/Talleco, Inc. Inter-School Hackathon, Dumaguete City, Philippines*
March 2024

- Contributed to the development of an AI-based job portal prototype using **React**, **Next.js**, and **Tailwind CSS**.
- Pitched the prototype to Talleco, Inc. professionals, earning **1st Runner-Up** in the hackathon.

Training

WPH Academy Summer Coding Bootcamp *Remote*
Certified Completer *June – July 2024*

- Completed an intensive full-stack engineering program focused on **C#, ASP.NET Core, HTML/CSS/JS, Tailwind, jQuery, and SQLite**, including security (IIS) and cloud fundamentals (AWS).
- Built a **C# console application &** full-stack **ASP.NET MVC web application** as capstone projects for the bootcamp.
- **Recognitions:** Elite 8 Awardee (*all weeks*), **Top 5 program participant** (*for overall performance*).

Organizational Experience

Auditor — *Student Council, Silliman University - College of Computer Studies* *A.Y. 2023-2024*

- Managed and led budget allocation discussions with the Governor, resulting in a **40% reduction** in council fees for the second semester.

Programs Committee Head — *Student Council, Silliman University - College of Computer Studies* *A.Y. 2022–2023*

- Designed program flows for collegiate events and coordinated student involvement, earning the **Best Initiative Award** for proactive leadership.

Education

Silliman University — Aug 2022 – *Present* (Expected Graduation: Mar 2026)
Bachelor of Science in Computer Science with units in BS Mathematics

Awards:

- Junior-Level Class Honors (2025)
- 2nd Place: The Brain Blitz – Intercollegiate Mathematics Quiz Bowl
- Dean's List Award (A.Ys. 2022-2025)
- Highest CQPA Award (A.Y. 2022-2023)
